Section 1: About Pinnacle Fund Services Limited

Pinnacle Fund Services Limited

Pinnacle Fund Services Limited ABN 29 082 494 362 AFSL 238371 (‘Responsible Entity’, ‘we’, ‘our’, ‘us’) is the responsible entity of the Fund. Pinnacle Fund Services Limited is wholly owned by Pinnacle Investment Management Limited ABN 68 109 659 109 AFSL 322140 (‘Pinnacle’). Pinnacle supports the development of high-quality investments businesses and is the distributor of the Fund.

Antipodes Partners Limited

The Responsible Entity has appointed Antipodes Partners Limited ABN 29 602 042 035 AFSL 481580 (‘Antipodes’, the ‘Investment Manager’), to manage the assets of the Fund.

Antipodes is a global asset manager offering a pragmatic value approach across long only and long-short strategies. It aspires to grow client wealth over the long-term by generating absolute returns in excess of the benchmark at below market levels of risk. Antipodes seeks to take advantage of the market’s tendency for irrational extrapolation, identify investments that offer a high margin of safety and build high conviction portfolios with a capital preservation focus. Antipodes is majorly owned by its seasoned investment team and its performance culture is underpinned by sensible incentives, a focused offering and the outsourcing of non-investment functions to maximise focus on investing.

Neither the Responsible Entity nor Antipodes guarantees the performance of the Fund or the return of capital or income. Your investment functions to maximise focus on investing, the investment team and its performance culture is underpinned by sensible incentives, a focused offering and the outsourcing of non-safety and build high conviction portfolios with a capital preservation focus. Antipodes is majority owned by its seasoned.

Section 2: How the Antipodes Global Fund - Long works

How does the Fund operate?

The Fund is a registered managed investment scheme. When you invest in the Fund, your money will be pooled with that of other investors and you will be issued ‘units’. Each unit held in the Fund gives the unit holder a beneficial interest in the Fund as a whole, but not in any particular asset of the Fund. Holding units in the Fund does not give a unit holder the right to participate in the management or operation of the Fund. Each unit in the Fund offered or issued under this PDS is of equal value and identical rights (as between units of the same class) are attached to all such units.

We are required by the Corporations Act to treat all investors within a class of units equally and investors in different classes fairly. We will keep a record of the number of units you have bought.

Applications

You can increase your investment at any time by buying more units in the Fund. When you make an investment in the Fund, your units will be allocated to you based on the entry price for the Business Day your application is processed.

You can also obtain updated information by contacting us on 1300 010 311. A paper copy of any updated information is available free on request. The Fund is a digital product and by making an application to acquire a unit, you agree to receive certain communications and disclosures in relation the Fund and units in digital form.

You should read the important information set out in the ‘Additional Information to the PDS’ located at www.antipodespartners.com. The material relating in the Additional Information to the PDS may change between the time when you read this PDS and the day when you sign the Application Form.

Important information

This Product Disclosure Statement (‘PDS’) provides a summary of significant information you need to make a decision about Class P units (‘units’ or ‘Class P units’) in the Antipodes Global Fund - Long (ARSN 627 330 367) (‘Fund’). It includes references to other important information which is in the Additional Information to the PDS and forms part of this PDS. The important information in the Additional Information to the PDS should be considered together with the PDS before making a decision to invest in the Fund. You can access the PDS and the Additional Information to the PDS at www.antipodespartners.com or call 1300 010 311 for a copy.

The information in this PDS is general information only. To the extent the information in this PDS constitutes financial product advice, such advice is general advice only and has been prepared without taking into account your objectives, personal financial situation or needs. Before investing, you should consider the appropriateness of the advice in light of your own objectives, financial situation and needs, and consider obtaining financial advice tailored to your personal circumstances. You should also read this PDS before making any decision about whether to acquire units. The investment offered in this PDS is available only to persons receiving this PDS (electronically or in hard copy) within Australia and New Zealand. Units in the Fund may not be offered or sold within the US, or sold to, or for the account or benefit of, any ‘US Persons’ (defined in Regulation S of the US Securities Act 1933, as amended).

All monetary amounts referred to in this Additional Information to the PDS are in Australian dollars and all phone/fax numbers are to phone/fax numbers in Australia (unless otherwise stated). A reference to a ‘Business Day’ is a reference to a day which is not a Saturday, Sunday or public holiday in New South Wales or Victoria, Australia.

Withdrawals

You can decrease your investment at any time by withdrawing your units in the Fund. When you withdraw, your units will be redeemed based on the exit price for the Business Day on which your withdrawal request is processed. Direct withdrawal requests can be made daily, and must be received by the Fund Administrator, RBC Investor Services Trust, prior to 12.00pm (Sydney time) on a Business Day. Withdrawal requests received after
that time, or on a non-Business Day, will be treated as being received on the next Business Day. Electronic transfer of the redemption proceeds can take up to 7 Business Days, however it will often be completed in a shorter period of time.

There is a minimum withdrawal amount of $5,000. In addition, if your withdrawal request would result in your investment balance being less than $25,000, we may treat your withdrawal request as being for your entire investment. We will provide investors with advance notice of any compulsory redemption. The minimum balance does not apply to investments through an IDPS.

Access to funds

Extreme market conditions can cause difficulties or delays to the Fund being able to sell its assets or requiring it to freeze withdrawals. These circumstances could result in it taking a period of time before you are able to withdraw your investment, or for it taking longer than usual for you to receive your withdrawal proceeds. We will not satisfy a withdrawal request if the Fund becomes illiquid (as defined under the Corporations Act 2001 (‘Corporations Act’)). In certain circumstances we may suspend withdrawals.

Unit price

The entry price is calculated by taking the net asset value of the Fund apportioned to the Class P units and adding to it an amount which reflects the estimated cost of acquiring the Fund’s assets (subject to the Responsible Entity’s discretion to reduce or waive such costs) and dividing the net figure by the number of Class P units on issue in the Fund.

The exit price of the Fund is calculated by taking the net asset value of the Fund apportioned to the Class P units and subtracting from it an amount which reflects the estimated cost of selling the Fund’s assets (subject to the Responsible Entity’s discretion to reduce or waive such costs) and dividing the net figure by the number of Class P units on issue in the Fund.

Current unit prices for the Fund are available on www.antipodespartners.com or by contacting us on 1300 010 311 or invest@pinnacleinvestment.com.

NAV

The Net Asset Value or ‘NAV’ of the Fund apportioned to the Class P units is calculated by deducting the value of the fees, charges, expenses and other liabilities from the value of the gross assets attributable to the Class P units in the Fund.

Current NAV per unit of the Fund is available on www.antipodespartners.com or by contacting us on 1300 010 311 or invest@pinnacleinvestment.com.

Unit pricing policy

The Responsible Entity complies with ASIC Class Order 13/655 as it relates to unit pricing requirements and has adopted a compliant policy for unit pricing discretions it uses in relation to the Fund (‘Unit Pricing Policy’). Additional documents may be prepared for this purpose from time to time.

Distributions

Distributions are payable quarterly as at 31 March, 30 June, 30 September and 31 December subject to the Fund having sufficient distributable income. The net distributable income of the Fund is allocated to unit holders on a per-unit basis according to the number of units held in the Fund at the end of the distribution period. Distributable income is calculated annually and is generally sent to unit holders within one month of the last day of the distribution period.

A distribution reduces the Fund’s net asset value and is therefore reflected in the Fund’s unit price.

\[
\text{Your distribution} = \frac{\text{The Fund’s distributable income} \times \text{The number of units you hold}}{\text{Total number of units on issue}}
\]

Distributions will be reinvested for additional units in the Fund unless otherwise instructed.

Indirect investors

Investors and prospective investors may access the Fund indirectly. This PDS has been authorised for use by operators through an Investor Directed Portfolio Service (‘IDPS’) or master trust. Indirect investors should not complete the Application Form. The rights of indirect investors are set out in the disclosure document for the IDPS or master trust. If you are investing through an IDPS or a master trust, enquiries should be made directly to the IDPS operator or the trustee of the master trust.

mFund investors

The Fund has been admitted to the mFund Settlement Services (‘mFund’), the managed fund settlement service operated by the ASX. mFund allows you to settle or pay the application price and be paid the redemption price based on the net asset value of the Fund. Your unitholding will be CHESS sponsored by your broker and identified through your individual Holder Identification Number (HIN). mFind investors may apply for or redeem units in the Fund via their broker. See www.mfund.com.au for additional information.

You should read the important information about ‘How the Fund works’ before making a decision. Go to ‘Additional Information to the PDS’ located at www.antipodespartners.com. The material relating to ‘How the Fund Works’ may change between the time when you read this PDS and the day when you sign the Application Form.

Section 3: Benefits of investing in the Antipodes Global Fund - Long

The Fund typically invests in a select number of attractively valued companies listed on global share markets (usually a minimum of 30 holdings). The Fund may use exchange traded derivatives to achieve long equity exposure. In the absence of finding individual securities that meet Antipodes’ investment criteria, cash may be held. The Fund aims to provide income and some capital growth over the long-term.

Further details of the Fund’s investment strategy are set out later in this PDS in Section 5 ‘How We Invest Your Money’.

Significant features and benefits

Access to investment opportunities | A pooled investment allows access to a diverse range of global companies that would not normally be accessible to individual retail investors.

Professional management | Antipodes’ well-resourced and experienced team manages the Fund using a disciplined investment approach aimed at delivering attractive long-term returns.
**Alignment of interests** | Antipodes is majority owned by its investment team with a performance culture underpinned by sensible incentives, a concentrated strategy offering and the outsourcing of non-investment functions to maximise long-term alignment with investors in the Fund.

**Robust investment process** | application of Antipodes’ comprehensive and integrated investment approach and process.

### Section 4: Risks of managed investment schemes

All investments carry risk. All managed investment schemes carry different types of risk which can have varying impacts on returns. Due to uncertainty in all investments, there can be no assurance that the Fund will achieve its investment objectives. The value of your units at any point in time may be worth less than your original investment even after taking into account the reinvestment of Fund dividends and distributions. Future returns may differ from past returns. Returns are not guaranteed, and you may lose some of your money. You need to consider the level of risk that you are comfortable with, taking into account factors such as your objectives, financial situation and needs.

Risks can be managed but cannot be completely eliminated. It is important to understand that:

- the value of your investment may go up and down;
- investment returns may vary, and future returns may be different from past returns;
- returns are not guaranteed and there is always the chance that you may lose money on any investment you make; and
- laws affecting your investment may change over time, which may impact the value and returns of your investment.

The significant risks for the Fund are:

- **Counterparty risk** – There is a risk with external counterparty and service provider arrangements that the party to a contract defaults on, or fails to perform, its contractual obligations.
- **Currency risk** – Investing in assets denominated in or primarily exposed to a currency other than the Fund’s base currency may cause losses resulting from exchange rate fluctuations.
- **Derivative risk** – The Fund may invest in derivatives as part of its investment strategy. A derivative is an instrument whose value is linked to the value of an underlying asset and can be a highly volatile investment instrument.
- **Emerging market risk** – The securities of issuers located or doing substantial business in emerging market countries tend to be more volatile and less liquid than the securities of issuers located in countries with more mature economies, potentially making prompt liquidation at an attractive price difficult.
- **Equity security risk** – The Fund primarily invests in equity securities issued by listed companies. The share price of a security can rise and fall as a consequence of many factors including, but not limited to, economic conditions, adverse investor sentiment, management performance, financial leverage, or factors that affect the company’s industry.
- **Foreign investment risk** – The Fund may invest in a range of international securities or foreign investment vehicles, and in companies that have exposure to a range of international economies and regulatory environments, which may impact the Fund’s international investments.
- **Income risk** – The Fund may make payments (regular or irregular) as distributions, depending on the income the Fund receives from underlying assets, which may fluctuate significantly in their market value.
- **Investment strategy risk** – The success of the Fund depends upon the investment manager’s ability to develop and implement investment processes and identify investment opportunities that achieve the investment objectives of the Fund.
- **Investment structure risk** – There are risks associated with investing in the Fund, such as risks of the Fund’s termination, changes to investment strategy or structure, changes to fees or expenses, or changes to the Fund’s operating rules (such as payments or reinvestments of distributions, or additional investments).
- **Liquidity risk** – Whilst the Fund is primarily exposed to traded assets traded on any Australian and International exchanges, and which are generally considered liquid, under extreme market conditions there is a risk that investments cannot be readily converted into cash or at an appropriate price.
- **Market risk** – The Fund has exposure to different markets, such as fixed income, equity, or derivative markets, and is not expected to behave like a cash investment. The Fund may be materially affected by market, economic and political conditions globally.
- **Regulatory risk** – The value of some investments may be adversely affected by changes in government policies, regulations and laws, including tax laws and laws affecting registered managed investment schemes.
- **Unlisted security risk** – Unlisted securities can be less liquid or less transparent than listed securities.
- **Withdrawal risk** – If we determine that this is in the best interests of all unit holders, we may suspend or delay withdrawals and these payments may take longer than the typical timeframe.

You should read the important information about ‘Risks of Managed Investment Schemes’ before making a decision. Go to 'Additional Information to the PDS' located at www.antipodespartners.com. The material relating to ‘Risks of Managed Investment Schemes’ may change between the time when you read this PDS and the day when you sign the Application Form.

**Investment guidelines**

The Fund has a maximum single stock limit of 7.0% of the Fund’s NAV.

The top 10 positions will typically account for 25% to 35% of the portfolio and the top 30 positions 60% to 80%.

The Fund is also permitted to also hold fixed income and debt securities, bullion, and other physical commodities.

**Currency exposure**

Currency exposure will generally be unhedged and reflect the currency of the underlying securities.

However, where the Investment Manager believes there is a strong likelihood of a decline in an underlying currency, currency derivatives, both over-the-counter and exchange traded, may be used to hedge currency exposure of the Fund.

**Labour standards or environmental, social or ethical considerations**

Antipodes applies environmental, social (including labour standards) and corporate governance (‘ESG’) considerations when selecting, retaining or realising investments in the Fund. Antipodes retains the services of external expert research providers to undertake some of the responsible investment research which is combined with quantitative ESG benchmarking and a common sense, case by case qualitative approach to assessing individual corporate ESG performance.

**Change to Fund detail**

We have the right to change the Fund’s asset classes, asset allocation ranges and investment return objectives without prior notice. We will inform investors of any material change to the Fund’s details via invest@antipodespartners.com or as otherwise required by law.

¹The above ranges are indicative only. The Fund will be rebalanced within a reasonable period of time should the exposure move outside of the above ranges.

²The Investment Manager may use exchange traded derivatives for hedging purposes as part of its investment strategy subject to the underlying effective face value being limited to 10% of the NAV of the Fund. The Fund may also use derivatives to manage currency risks. The Fund will not use derivatives for gearing purposes.

You should read the important information about ‘How we invest your money’ and ‘How we keep you informed’ before making a decision. Go to ‘Additional Information to the PDS’ located at www.antipodespartners.com. The material relating to ‘How We Invest Your Money’ may change between the time when you read this PDS and the day when you sign the Application Form.

**Section 6: Fees and costs**

**Consumer advisory warning**

**DID YOU KNOW?**

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your fund balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from $100,000 to $80,000). You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs. You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the fund or your financial adviser.

**TO FIND OUT MORE**

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (‘ASIC’) website (www.moneysmart.gov.au) has a managed funds fee calculator which can be used to calculate the effect of fees and costs on account balances.

**What are the fees and costs of the Fund?**

This section shows fees and other costs that you may be charged. These fees and costs may be deducted from your account, from the returns on your investment or from the Fund assets as a whole. Taxes are set out in another part of this document. You should read all the information about fees and costs because it is important to understand their impact on your investment. You should use this information to compare this product with other simple managed investment schemes.

### Example of annual fees and costs for the Fund

The following table gives an example of how the fees and costs applicable to units in the Fund can affect your investment over a one (1) year period. You should use this table to compare this product with other managed investment products.

<table>
<thead>
<tr>
<th>Example: Contribution fee</th>
<th>Balance of $50,000 with a contribution of $5,000 during the year</th>
</tr>
</thead>
<tbody>
<tr>
<td>Management fee of 1.20% p.a. plus Performance fee of 15% of the difference in the Fund’s return (net of management fees) relative to its benchmark return multiplied by the net asset value of the Fund. plus Indirect costs of 0.00% p.a.</td>
<td>Management fee: The management fee is calculated on the net asset value of the Fund and reflected in the daily unit price and payable monthly in arrears from the Fund. Performance fee: The performance fee is calculated and accrued each Business Day and is reflected in the daily unit price. The performance fee is payable half-yearly as at 31 December and 30 June, if applicable. Indirect costs: The indirect costs are calculated on the net asset value of the Fund and reflected in the daily unit price and payable monthly in arrears from the Fund. Extraordinary expenses are paid from the Fund assets as and when incurred.</td>
</tr>
<tr>
<td>Nil</td>
<td>For every additional $5,000 you put in, you will be charged $0. And for every $50,000 you have in the Fund you will be charged $610 each year comprising a management fee of $600 plus a performance fee of $10.</td>
</tr>
</tbody>
</table>

1. Fees are inclusive of GST and of any applicable reduced input tax credits (‘RITC’).
2. The amount of this fee can be negotiated for certain investors such as wholesale clients (as defined in the Corporations Act), depending on factors such as the amount invested.
3. When money moves in or out of the Fund, you may incur a buy/sell spread which is included in the unit price of the Fund. Refer to ‘Buy/Sell spread’ below for more information.
4. The Fund’s benchmark is the MSCI All Country World Net Index in AUD. Refer to ‘Performance fees’ information below for further information.
5. Indirect costs refer to the costs of obtaining exposures through interposed vehicles or over-the-counter derivatives (excluding over-the-counter derivatives used for hedging or risk management purposes) incurred by the Fund.

### Example

1. The example assumes management costs are calculated on a balance of $50,000 with the $5,000 contribution occurring at the end of the first year. Therefore, management costs are calculated using the $50,000 balance only. Additional fees may apply, including a buy/sell spread (refer to further information below).

Please note that this is just an example. In practice, your investment balance will vary, as will related management costs. Fee rebates may be individually negotiated with wholesale clients (as defined in the Corporations Act). Go to ‘Additional Information to the PDS’ located at www.antipodespartners.com for further information about negotiable fees.

**WARNING:** Additional fees and costs may be paid to a financial adviser if a financial adviser is consulted. The details of these fees and costs should be set out in the statement of advice by your adviser.

We have the right to increase the fees or to charge fees not currently levied up to the maximum limits set out in the Fund constitution without your consent. If we choose to exercise this right, we will provide you with 30 days prior written notice.

**Buy/sell spread**

The buy/sell spread is an additional cost but, as it is included in the unit price of the Fund, it is not charged to you separately. The buy/sell spread is the difference between the entry price and the exit price of the units in the Fund. The buy/sell spread is determined by the Responsible Entity to take into account the costs incurred when buying and selling the underlying securities in the Fund such as brokerage and stamp duty (if applicable). As at the date of this PDS, the estimated buy/sell spread added on buying or deducted on selling is 0.30% of the unit price. For example, assuming the Fund’s unit price is $1, an application of $50,000 in the Fund will cost the investor $150 and a redemption of $50,000 from the Fund will cost the investor $150.

From time to time, we may vary the buy/sell spread. Any revised spread will be applied uniformly to transacting investors while that spread applies.

You should read the important information about ‘Fees and costs’ before making a decision. Go to ‘Additional Information to the PDS’ located at www.antipodespartners.com. The material relating to ‘Fees and Costs’ may change between the time when you read this PDS and the day when you sign the Application Form.
Section 7: How managed investments schemes are taxed

WARNING: Investing in a registered managed investment scheme may have tax consequences. You are strongly advised to seek professional tax advice.

The taxation implications of investing in the Fund can be complex and depend on a number of factors, including whether you are a resident or non-resident of Australia for taxation purposes and whether you hold the units on capital account or revenue account.

You should read the important information about ‘Taxation’ before making a decision. Go to ‘Additional Information to the PDS’ located at www.antipodespartners.com. The material relating to ‘Taxation’ may change between the time when you read this PDS and the day when you sign the Application Form.

Section 8: How to apply

Direct investors
To apply for units in the Fund directly, please read this PDS together with the Additional Information to the PDS located at www.antipodespartners.com then complete the Application Form.

Direct applications received, verified and accepted by the Fund Administrator prior to 12:00pm (Sydney time) on a Business Day will generally be processed using the unit price for that day. For applications accepted after 12:00pm (Sydney time) or on a non-Business Day, generally the next Business Day’s unit price will apply.

We reserve the right not to accept (wholly or in part) any application for any reason or without reason. No interest is received on application monies, including monies for additional investments, and no interest will be paid to you if for any reason your application cannot be accepted.

Indirect Investors
If you are investing through an IDPS or a master trust, enquiries should be made directly to the IDPS operator or the trustee of the master trust.

mFund investors
You may apply for units in the Fund via your broker through mFund.

Cooling-off
If you are a retail client (as defined in the Corporations Act) investing directly in the Fund, you have a 14-day cooling-off period. If you exercise your cooling-off rights, we will return your money to you and no fees will apply. However, the amount you receive will reflect any movement (either up or down) in the unit price of the Fund which means that there may be tax implications for you. The 14-day cooling-off period commences on the earlier of the end of the fifth Business Day after we issue the units to you or from the date you receive confirmation of your application. A cooling-off period does not apply to the operator of an IDPS or trustee of a master trust, or other wholesale clients (as defined under the Corporations Act), or where units have been issued as a result of an additional investment, switch or distribution reinvestment plan.

Complaints
We have a complaints’ handling policy and aim to resolve all complaints quickly and fairly. If you have a complaint about your investment, please contact us on:

The Australian Financial Complaints Authority is an independent body whose decisions are binding on the Responsible Entity.

Section 9: Other information

Continuous disclosure documents
The Responsible Entity will comply with the continuous disclosure requirements for disclosing entities under the Corporations Act where the Fund is a disclosing entity. This means that the Fund will be subject to regular reporting and disclosing obligations and copies of documents the Responsible Entity lodges with ASIC for the Fund may be obtained from or inspected at an ASIC office.

The Responsible Entity will also send you free, upon request, copies of:

- the most recent annual financial report for the Fund lodged with ASIC; and
- any half year financial reports for the Fund lodged with ASIC after the lodgment of the most recent annual financial report.
Also, we will comply with our continuous disclosure obligations for the Fund by publishing material information at www.antipodespartners.com

Consents
Antipodes has consented to being named in this PDS in the form and context in which they are named and, as at the date of this PDS, have not withdrawn their consent.
